

2012 ARCHERY PSE SPECIAL SERVICES

NEW
2012

DESIGN YOUR OWN CUSTOM BOW!

Pete Shepley and the engineers at PSE spend a great deal of time designing our bowline each year. They do everything possible to offer a wide selection of bow options that will satisfy the needs of most archers. But, there are customers who need or want something a little different. What if you want a special color that we don't offer in our catalog? That's why we created the PSE Special Service Custom Shop. Through our Custom Shop you can let your imagination run wild. Using the multitude of existing components, the Custom Shop can possibly make a one of a kind bow, just for you.

IMPORTANT NOTE: *Not all desired configurations will be possible and always remember our catalog offerings are designed by our engineers for optimal performance.*

Are you looking for that special color for your compound bows? We now have many colors to choose from. Colors will vary from run to run and are available only for Compound bows.
